

# SAGEOS

## CERTIFICATION NO. S359-001

Following technical analysis and a series of specific testing on a sample of :

### GEOCELL TABOSS Product

produced by:

TABOSS Przetworstwo Tworzyw Sztucznych i Slusarstwo  
Tadeusz Soja, 48-300 Nysa, ul. 3-go Maja 34a

It is to certify that this product meet technical requirements for Geocell products.

Its properties are listed in attached Table<sup>1</sup>. This Table as well as Appendix which lists a potential application of the product are the parts of this certification.

  
Jacek Mlynarek, Ph.D.  
General Director  
August 20, 2000

<sup>1</sup> : The SAGEOS certification is based on observations as well as on the results of tests carried out on provided samples. The SAGEOS will not be held responsible for any mistakes occurring as a result of application of other GEOCELL TABOSS product than the one tested and reported in File S359-001. It is the engineer responsibility to verify, by third-party laboratory, the properties of each GEOCELL TABOSS prior to each project. In specific cases an additional test on UV degradation should be carried out. It is also the engineer responsibility to select GEOCELL TABOSS product in function of the complete engineering analysis of the given application. The SAGEOS will not be held responsible for any mistakes occurring as a result of erroneous selection or incomplete analysis of the application by the engineer.
